Machine Learning Project Titles

Sr. No	Project Tittle	Technology Used
1.	Crop Disease Diagnostic System Using Machine Learning	Machine Learning
2.	Animal Disease Prediction using Machine Learning	Machine Learning
3.	Mental Health Assistance (Chatbot)	Machine Learning
4.	Malicious URL Detection Using Machine Learning	Machine Learning
5.	Road Lane Detection Using ML	Machine Learning
6.	Intrusion Detection Using ML	Machine Learning
7.	Cyber-attack for optimal power flow control	Machine Learning
8.	Symptoms Based Human Disease Prediction System Using ML	Machine Learning
9.	Spam Email Detection Using Machine Learning	Machine Learning
10.	Movie recommendation with Comparative analysis of Various Algorithmic technique	Machine Learning
11.	Development Atomized plagiarism Checker System using Machine Learning	Machine Learning
12.	Automatic Research paper generator using Machine learning	Machine Learning
13.	Road Lane Detection Using ML	Machine Learning
14.	Travel Route Recommendation using ML	Machine Learning
15.	Diet Recommendation Using ML	Machine Learning
16.	Resume Screening Using ML	Machine Learning
17.	Face detection and Recognition System using Deep Learning	Machine Learning
18.	Study and Implementation of various Classification Algorithm for Review Classification and Recognition	Machine Learning
19.	Social Distance Manipulation and Alert System Using Deep Learning	Machine Learning
20.	Emotion Detection From Face Recognition Using ML	Machine Learning

21.	Automatic License Plate Recognition System Using ML	Machine Learning
22.	Covid 19 Patient Prediction System	Machine Learning
23.	Malicious Social media post detection using ML	Machine Learning
24.	Social Media Sentiment Analysis for emotion detection	Machine Learning
25.	Sentiment Analysis for review Filtration	Machine Learning
26.	Intruder Detection System	Machine Learning
27.	Predicted Analysis of Product Search using ML	Machine Learning
28.	Forensic document verification with real time image processing	Machine Learning

Android Project Titles

Sr No	Project	Technology Used
1	Wi-fi Enable Attendance System	Android
2	Online Voting System App with UID verification	Android
3	Voice Enable Email System	Android
4	Virtual Fruit Market For Buying vegetables from farm	Android
5	Carpooling system	Android
6	Android Based Traffic Management System	Android
7	Auto Rationing System	Android
8	Blood Search System	Android
9	Symptom Based Medicine Finder Android App	Android
10	Society Management System Android App	Android
11	Face Based Attendance System	Android
12	Exam Sitting Arrangement System	Android
13	E complaint management for municipal complaint management	Android
14	QR code based Bike verification RTO app for traffic management	Android
15	QR code based student information retrieval system	Android
16	Online Food Ordering System	Android
17	Food Price Comparative App in Android	Android
18	Old book with buying and selling app	Android
19	Navigation Based Local Market Searching	Android
20	Navigator for blind person using Android	Android
21	Room Finder Application	Android
22	Medicine Synonym finder	Android

23	Location Based Reminder System	Android
24	Smart City monitoring System	Android/ IOT
25	Automize water bill generation and manipulation	Android/ IOT
26	Automize Dustbin	Android/ IOT
27	Audio Scanner For image	Android/ IOT
28	Hand Gesture Recognition System For Mute People	Android/ IOT
29	Fraud app detection using android	Android/ IOT
30	Auto Door lock system using face reorganization system	Android/ IOT
31	Environment monitoring System	Android/ IOT
32	Digital Door bell with photo sharing system	Android/ IOT
33	Development Of power saving street light system	Android/ IOT
34	Protective flood dam management system	Android/ IOT
35	Air and water quality system	Android/ IOT
36	Road Signal Clearance	Android/ IOT
37	Auto Farm monitoring system using android	Android/ IOT
38	Android enable sanitizing Robot	Android/ IOT
39	Automatic Vehicle Document Verification	Android/IOT
40	Smart Bike System	Android/IOT
41	Security Alert System with human body Detection	Android/IOT
42	Smart Electric Bill System With Android	Android/IOT
43	Smart Car System	Android/IOT Android
44	Street Light Automation using Android with IOT	Android/IOT

Web Project Titles

Sr No	Project	Technology Used
1	Web Based Voice Enable System	Web
2	University Search Engine	Web
3	RFID based Ticket automatic machine	Web
4	RFID based In out system	Web
5	Review Filtration system in Android	Web
6	Reranking of Google search result	Web
7	SQL Query Optimization	Web
8	News Extraction web portal using web mine	Web
9	Keyword based YouTube video extraction	Web
10	Patient Health Tracking System	Web
11	Online examination system with IQ evaluation	Web
12	Online assignment system with auto grading	Web
13	Voice enable note writing system for blind people	Web
14	Data Leakage Detection	Web
15	IT Help desk for task Management using web	Web
16	Descriptive answer evaluation system	Web
17	Cashless Campus system using RFID	Web
18	Blood Search System	Web

IOT Project Titles

Sr No	Project	Technology Used
1	Automize Robotic Arm	IOT
2	IOT Enable thermal scanner for corona detection applicable at Railway Station and public places	IOT
3	IOT enable Smart Bike System	IOT
4	IOT based secure home	IOT
5	IOT based digital notice board	IOT
6	IOT based accident detection with security alert	IOT
7	Touch less light and equipment handling system using IOT	IOT
8	Vegetable sanitizing basket with water vaporization	IOT
9	Android enable speaking system using android and node MCU	IOT
10	Automatic Sanitizing Machine for Home and offices	IOT
11	Streetlight Monitoring System	IOT
12	Smart Agriculture System	IOT
13	Weather Reporting System	IOT
14	Smart Anti-Theft System	IOT
15	Night Patrol Robot	IOT
16	Mining Worker Safety Helmet	IOT
17	Remote Health Monitoring System for COVID-19 Patients	IOT
18	Get Notified About Covid-19 Vaccine Availability in Cowin	IOT

19	Measure Heart Rate and SpO2	IOT
20	Smart Cradle System using IoT	IOT
21	Tank Water Monitoring System	IOT
22	Smoke Detecting IoT Device Using Gas Sensor	IOT
23	Crypto Alert System Using Bolt IoT	IOT
24	IOT Based Antenna Positioning System	IOT
25	IOT Industry Automation Using Raspberry Pi	IOT
26	IOT Air & Sound Pollution Monitoring System	IOT
27	IOT Based Person/Wheelchair Fall Detection	IOT
28	IOT Syringe Infusion Pump	IOT
29	IOT based Three Phase Power Failure Monitoring with SMS Alerts	IOT
30	IOT based Three Phase Power Failure Monitoring with SMS Alerts	IOT
31	Greenhouse Monitoring and Control System using IOT Project	IOT
32	IOT Energy Meter with Current, Voltage and Cost Monitoring System	IOT
33	IOT Color Based Product Sorting Machine Project	IOT
34	IOT Paralysis Patient Health Care Project	IOT
35	IOT Smart Mirror With News & Temperature	IOT
36	Gesture-Controlled Contactless Switch for Smart Home	IOT
37	Measure Heart Rate and SpO2	IOT
38	IOT Alcohol & Health Monitoring System	IOT
39	Air Monitoring System	IOT
40	Smart Alarm Clock	IOT
